

## Utah Environmental Health Association Scholarship Application

The Utah Environmental Health Association (UEHA) has established education in Environmental Health as one of their principle goals. Structured education at the undergraduate level is most important to and individual's professional development for work in this field. With this ongoing goal in mind, the UEHA Board of Trustees has established a UEHA Scholarship Fund in the amount of \$500.00

The purpose of the UEHA scholarship program is to encourage early commitment by students to a career in Environmental Health. The scholarship is to be applied for during their sophomore and junior years of school. The scholarship is to be used toward the tuition and fees of students currently in their junior or senior years of college. The student must be enrolled in a science-based curriculum at a four year college in the State of Utah.

Duration: The scholarship is awarded once per calendar year.

Application: Applicants must (1) Complete the official application form, (2) Provide an official copy of the student's academic transcript from the school in which they are currently enrolled, and (3) Submit an essay of 250-300 words on a current environmental health topic. Selection will be based on submitted materials and a personal interview conducted by members of the UEHA Technical and Resolutions Committee.
